

## **North America**

- A. Our population is estimated at 338 million
- B. The acres of arable land per person are 1.7 acres
- C. Our birth rate is 14 babies per 1000 people. Our death rate is 8 per 1000 people.
- D. Our annual growth rate based on births and deaths is .6%.

At this rate our population will double in 116 years.

- E. 96% of our men and 95% of our women are literate.
- F. North American women bear an average of 2 children.
- G. Our infant mortality rate is 7 per 1000 babies.
- H. Our life expectancy is 78 years.

## **Latin America**

- A. Our population is estimated at 577 million
- B. The acres of arable land per person is .8 acres
- C. Our birth rate is 21 babies per 1000 people. Our death rate is 6 per 1000 people.
- D. Our annual growth rate based on births and deaths is 1.5%.

At this rate our population will double in 47 years.

- E. 91% of our men and 90% of our women are literate
- F. Latin American women bear an average of 2.5 children
- G. Our infant mortality rate is 26 per 1000 babies.
- H. Our life expectancy is 72 years.

## **Europe**

- A. Our population is estimated at 736 million
- B. The acres of arable land per person is 1 acres
- C. Our birth rate is 10 babies per 1000 people. Our death rate is 12 per 1000 people.
- D. Our annual growth rate based on births and deaths is -.1%.

At this rate our population will not double: it will decline.

- E. 99% of our men and 99% of our women are literate
- F. European women bear an average of 1.4 children
- G. Our infant mortality rate is 7 per 1000 babies.
- H. Our life expectancy is 75 years.

## **Africa**

- A. Our population is estimated at 967 million
- B. The acres of arable land per person is .6 acres
- C. Our birth rate is 38 babies per 1000 people. Our death rate is 15 per 1000 people.
- D. Our annual growth rate based on births and deaths is 2.3%.

At this rate our population will double in 30 years.

- E. 72% of our men and 54% of our women are literate
- F. African women bear an average of 5.1 children
- G. Our infant mortality rate is 84 per 1000 babies.
- H. Our life expectancy is 52 years.

## **Asia**

- A. Our population is estimated at 4 billion and 52 million.
- B. The acres of arable land per person is 0.4 acres
- C. Our birth rate is 22 babies per 1000 people. Our death rate is 8 per 1000 people.
- D. Our annual growth rate based on births and deaths is 1.4%.  
At this rate our population will double in 50 years.
- E. Of our 12-17 year olds, 62% of the boys and 53% of the girls are enrolled in school.
- F. Asian women bear an average of 2.7 children
- G. Our infant mortality rate is 55 per 1000 babies.
- H. Our life expectancy is 67 years.
